How Counter lowers your medication costs:

- 1 Counter identifies opportunities for your family to save money.
- 2 You review and approve your savings opportunities.
- 3 We coordinate the logistics on your behalf before your next order.

Finding pharmacies with **lower costs.**

Medication A

[Change Pharmacy](#)

\$850

in full plan year savings

We'll transfer your prescription to a pharmacy with a lower cost.

Identifying lower-cost **alternative medications.**

Medication B

[Change Medication](#)

\$500

in full plan year savings

We'll ask your doctor to review and approve more affordable medication options.

Counter is neither a pharmacy nor a prescriber. Note that Counter's optimization relates to potential cost savings only. Counter has not analyzed the effectiveness or other therapeutic aspects of these medical alternatives or undertaken any medical judgment. Whether it is medically appropriate to switch prescriptions should be determined by your prescriber. Personalized savings estimates are based on the date of calculation, and values are subject to change.
